

## Internship Abroad

**Kofinanziert von der  
Europäischen Union**

# Mikrofortbildungen

[OBJ]

[OBJ]

## General Idea

1.

1.

2. - students have to do a 3-week-internship at the end of form 11
3. - as a „School of Europe“ we motivate the students to do the internship abroad
4. -> gain real work experience
5. -> improve their language skills
6. -> improve their intercultural skills

## 1. Information

- students inform younger students about their experience at the beginning of form 11

## 2. Applying for internship

Students apply for an internship and find host families (mostly family members, friends of the family, school, twin towns)

## 3. Official Permit

- students file an application at the official school authorities
- students name a person in charge on site

Are there any chances to „exchange“ students for internships among our FLOW network?

Thanks for listening
