How to make an E-portfolio

We have chosen to use the pamphlet on Google Sites. Here the students can log in using just the email address that the teacher has provided.

Help for the teachers:

Before they log in you must adjust the settings.

1. Go to manage your Google account
2. Go to security
3. Check that you have two-step verification activated.

Then when the students want to log in they just type in the email and you verify them on your phone.

When you have verified them, they have access, and you don't need to repeat this. But when the project is over you can go to security (step 2) again and remove them.

Help for the students:

Here they can upload information, pictures, movies and more (se pictures below).

My craft project: A box with 2 hidden pockets

My handcrafted hinge.

Here I had no hinge big enough for my box so. I solved the problem by making my own hinge out of wood.

The plugs

Here I required a solution that makes the piece lose when I want to push it aside and also solid when it is hidden. I made 3 plugs. 1 inner plug and 2 plugs one the sides. I pushed 2 blocks betwen the plugs so that it would tighten up to the walls of the box become rock solid.

Coding a websites and more

Hello Username!Welcome to my game

Click Me!   Click Me!

Du har sa manga poang: 0

Kop upgradering for sa manga poang: 7

Ditt uppdrag ar att: Köp den grona uppgraderingen 5 ganger.

I'am also a self learned programmer.

I've spent much time learning how to code websites and games. I learned this on a website called https://www.w3schools.com/ On the right side is one of my games. That game is bult up by 7 500 different letters and comands.

My curent chess career

1400 Estimated FIDE rating

In my freetime I play with and against some of the best chess players in Sweden. The highest rated player I've won over is my 1900 rated chess trainer. I think chess is beutiful game becase I can always find what I did wrong and improve my abilities and never reapeat the same misstake again.

Who is Petter?

I am a 14 year old student with many ambitions. I have during my life improved my abilities and become more than capable at cooking, maths, and physical work. I am a social person and I believe life would become empty without other people around us.

I 've spent much of my free time in the Scouts, chess clubs, swiming, gym and practising martial arts. In all of these places, I take responsibility for myself and my friends. At some of these places, I've become a groupleader and teach others skills I've learnt. This summer I will also have a summer job gained from my performance at the swimming assembly.

I am also a part time lumberjack. Once every month me, my father and my big brother chop down. A few trees to look after the forest and collect wood to burn.. Here I learn safety mesures, gain more strength and how to deal with hard work.
