# Artificial Intelligence in the classroom

ChatGPT

Co-funded by the European Union

Erasmus+
Enriching lives, opening minds.
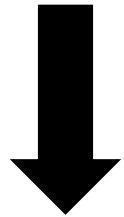

What is ChatGPT

A **chatbot** trained to follow a prompt (precise question) and provide a detailed response.

ChatGPT

Text based

Picture based

Best practise: In the classroom

Chat with a historic person

Creating role cards
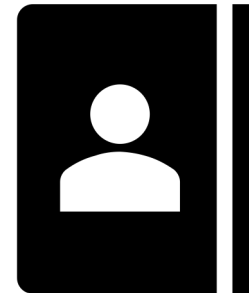

The key to success is an effective and precise prompt.

Let's go! Log into your ChatGPT account and type in the prompt:

Simulate a chat *with the American astronaut Neil Armstrong. I ask the questions and you answer as Neil Armstrong. Wait for my questions to answer!*

To save your work:

Show the questions and answers in a chart.

Create a role card for three people *living in a tenement in Liverpool in 1850 each of them reflecting another aspect of industrialization such as housing, living and working conditions, health.*

→ *Write a dialogue between these people.*

→ *Collect emotions these people have.*

→ *Generate a word list for industrialization.*

Other options for using AI in the claasroom:
